megan salmon is a wholly original Australian designer who every season designs new textiles and new shapes for

upstream by megan salmon .

upstream is all about print. Original prints that you can mix and match in exciting ways.

Upstream is all about value. We love nothing more than seeing our customers wearing pieces from previous seasons because they love them so much and they are made to last.

Upstream is all about natural fabrics and ethical business practices.

Upstream is all about fit. We care about the way the clothes look on you. Megan designs them to make you look a million bucks!
